

# Prayer Testimonials

## from North Coast Calvary Chapel

*"My daughter, who is disabled needed special care for her problem. She has been homeless for the last five months. I made several requests with the local authorities to get her into a hospital to receive care and they said they could only admit her if she was suicidal, homicidal or unable to take care of her basic needs. She didn't qualify for any of these situations. After causing a disturbance at a local restaurant, the police came and she started to fight with them. They took her to Tri-City Hospital. I thank God that she is now in the hospital getting the special care she needs. This is a major breakthrough, praise the Lord!"*

*"I came from Phoenix for a one month's stay and attended one of your church services. I noticed there was a healing and restoration prayer room on Monday's and decided to come for prayer for healing of a herniated disc in my back. I was unable to sit for more than ten minutes at a time due to extreme pain and could only be on my back in bed with my knees up. I came to the prayer room twice. The team and I believed for my healing even though I still had pain and was physically limited. The second time I came on the following week, the pain subsided and I could sit for a longer period of time. My actions were no longer limited. I could bend, get into the car easily, lie in bed on my side and stomach. I now have no pain and no physical limitations. Praise the Lord - His gracious mercy and loving-kindness and praises to your lovely prayer room team."*

*"Last April after I went to Buffalo for my son's wedding, my knees started hurting. It continued steady, every day for two months. It felt like they were swollen and tender. They did not look swollen though. I finally went to the doctor, who just gave me anti-inflammatory medicine. I was taking the medicine two or three times a day and wore pain patches. Meanwhile, I went to the Monday prayer room and prayer tent and had people lay hands on me and pray for my knees twice. I was also on the church prayer list. Several months later, I noticed the pain was gone and as time went on, the pain did not come back. During the time that the pain was bad, I put my treadmill away and I could only walk in pain. Now my treadmill is back out and I walk normal and the throbbing pain that was so present, is now gone. It's awesome! I praise God for healing and for the faith of my husband's prayers, as well as all the prayers of the people."*
